Technology: HTML, CSS, Java Script ,PHP, SQL.
Developed an web App for tracking and real time bus tracking system for students.

Title: Smart City Awareness & Fraud Detection
Technology: HTML, CSS, Java Script ,ML, FNN,Flask.
Developed an AI-driven platform for fraud detection and smart city updates with monetization strategies.

Internships

Domain: AI&ML
Organization: Internship Studio (Jan-Feb 2024)
Role: Developed An ANN Face Reconization model to match the faces.

Domain: Software Development
Organization: Cognifyz (July-August 2024)
Role: Developed a program and algorithm for a Software.

Certifications & Trainings

- Completed **AI Builder Lab** Course from H2SKILL.
- Completed 15-days Training on **Machine Learning** from SISTec, Bhopal.
- Completed **Python Essential 1** Course from CISCO.
- Completed **Problem Solving** Certificate from HackerRank.

Co-Curricular Activities & Accolades

- Participated **A National Level AI INNOVATION HACKATHON** at SIStec.
- Participated in Vidhyapeeth **Innovation Hackathon** 2024.
- Solved **100+** DSA Problem on (Leetcode + HackerRank+ Coding Ninjas) digital platform.

Interpersonal Skills

- Delegate Management
- Collaborative
- Punctual

Hobbies/ Area of Interest

- Poetry Writing
- Personality Development
